

# Sound Control Windows

## Features:

- Completely factory assembled window system
- Single source responsibility for hardware and glazing installation
- Easy and fast on-site installation.
- Proven laboratory and field performance
- Flexibility in size and configurations, including prime painted standard finish
- Ideal for new construction or retrofit applications
- Fixed Frame "HM" or "U" frame design
- Split Frame "HM" design available
- Guaranteed acoustical performance

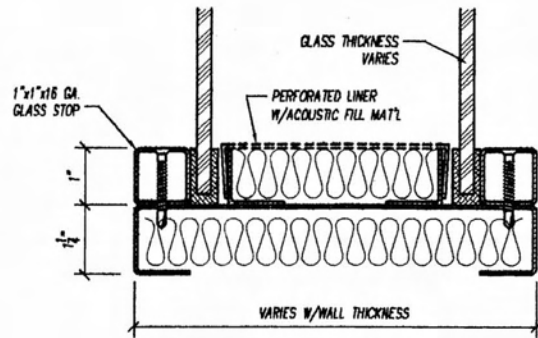

The QuietLite window is completely factory assembled including the installation of liner panels (powder-coated perforated steel), glazing and glass stops. The result is a window that leaves the factory truly ready to install.

All of our windows are manufactured by noise control specialists in the United States. Our fixed frame (HM) or split-frame (SF) system allows for an easy installation in a wide array of site requirements. Our QuietLite windows are in service everywhere from some of the most sophisticated performing arts centers to the most demanding industrial applications, and everywhere in between.

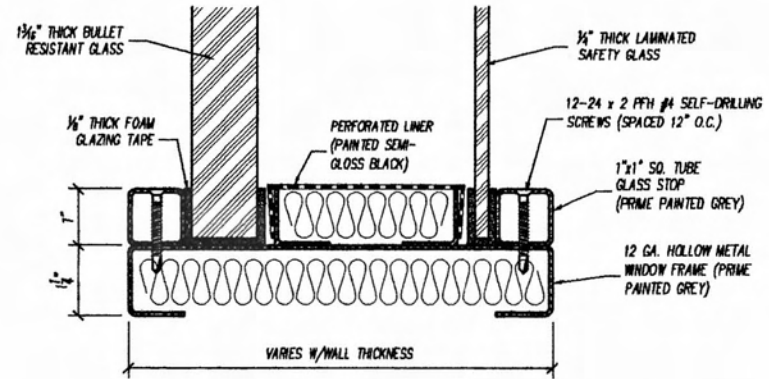

The QuietLite windows can be manufactured to meet multiple requirements including Ballistic ratings, blast/pressure and fire. QuietLite noise control windows are all manufactured to meet your exact needs and applications.

Door Size	Custom sizes
STC Ratings	43 - 57
Frame Design	HM Frame, Split Frame, U Frame
Security Features	Bullet resistant windows available
Finish	Wood or prime painted metal frames
Installation	Frame is custom sized to fit over your rough opening.
